

Equipment Hire

Our philosophy when choosing equipment for rental is to have the best quality equipment available as this enhances your safety and comfort. Being more comfortable in the water means you'll enjoy your diving more and thus will dive more - it's a win-win situation!

So, we proudly boast an extensive stock of high quality equipment for hire. The absolute maximum lifetime of our hire equipment is 2 years so you will always get new to nearly new equipment every time you hire from us. And we don't charge a premium for this privilege. Our hire prices are very competitive.

We look after you by looking after our equipment and ensuring you get the quality equipment you pay for!

Our range of hire equipment includes:

- Cylinders Steel & Aluminium - 4 sizes from 15ltr to 9ltr
- Regulators - Balanced with full decompression, nitrox compatible computers plus compass (Nitrox - clean regulators are also available)
- BCD's - Weight Integrated
- Wetsuits - Both male and female 5mm in all sizes
- Hooded Jackets - Both male and female 5mm in all sizes for added warmth
- Weights - 3lb & 6lb
- Mask, snorkel, boots & fins
- Dive Tubs - to protect your car from salty wet gear
- Torches
- Full Tech Twin Set-ups
- Nitrox clean stage bottles - 5 ltr, 8 ltr and 10 ltr.

Technical Diving Hire Equipment

PLUNGE offers technical twin set-ups and stage cylinders for hire. We have harnesses & bladders, Faber steel cylinders with isolation manifolds and Apex & Cressi regulators.

All of our hire equipment is inspected weekly and serviced every 3 months.

Every time you hire equipment from PLUNGE:

- Cylinder pressure will be checked
- Regulator and BCD will be put on a cylinder and tested before you take it off site
- Insertion and extraction of weight integration will be demonstrated
- Fin straps, buckles, mask straps and clips will be checked.

Then when you return the equipment, it is checked in, washed thoroughly and disinfected to maintain our strict hygiene policy.

We do not require you to wash the equipment before returning it to us. This is part of the service we provide!
